Angular misalignment:

1.2° to 2°, depending on length

Hub bores:

Standard quality of fitting H7.
Custom bores on demand.

Tooling materials:

Hubs made of anodized aluminum, metal bellows made of stainless steel.

Standard bores:

DKN 4-15 Ø 6H7
DKN 20 Ø 6H7 und 10H7
DKN 45-100 Ø 10H7

1) Tolerance of keyway: Standard JS9.
